

Armatherm™ 500 is a load bearing, thermal break material manufactured in several densities to provide a range of load capacities with R values as low as R 3.8 per inch. ~~Note Foundation insulation length under floor slab was 12" for these scenarios.~~

high

The linear transmittance can be reduced further by increasing the length of the slab insulation. ~~L values are similar to F factors and are the heat flow of the slab on grade per unit length of the slab perimeter.~~
